

Cookies

A cookie is a small (text) file that is downloaded to your computer when you visit a website. Cookies are used by many websites for various purposes, such as remembering your preferences, storing what you put in your shopping cart and counting the number of people who visit a website.

Why do we use cookies?

Fibr uses cookies to ensure that you have the highest possible ease of use on our website (including internet banking) and that you can navigate the site quickly and efficiently. We also use cookies to determine where we can improve our website to make it even faster and easier for you to find what you are looking for. Cookies are also used to provide you with relevant information and offers.

Cookie types

We use:

1. Session Cookies to track your browser session. This cookie is deleted when you close your browser.
2. Preference Cookies to store the consent to the use of cookies.
3. Analytics Cookies to collect information about how visitors use the website. FIBR uses this information to improve the website and we do this by storing this information anonymously. For more information, you can consult Google's overview of privacy and data protection.

By using our website you agree to the use of cookies. FIBR does not need to request permission for the use of cookies that are necessary for the functioning of our websites. In addition, we do not require permission to use cookies that do not identify you personally.
